CLEAN PROTECT

Stainless Steel and Synthetic Surface Treatment

DESCRIPTION

Ready-to-use product specifically designed for the protection and maintenance of polished and synthetic surfaces. Clean Protect prevents soil, water spots and fingerprints from adhering to surfaces making cleaning easier.
Food contact approved.

USE

The surfaces can be warm or cold. Degrease the surface and remove all visible soil. Spray the product on a paper towel or on a clean and dry microfiber cloth. Apply Clean Protect to the surface with the cloth or paper towel. **DO NOT SPRAY DIRECTLY ON THE SURFACE.**

DOSAGE

Ready-to-use.

TECHNICAL CHARACTERISTICS

- Fragrance-free
- Color: yellow

STORAGE

Keep the product in its original closed packaging.

ECOLOGICAL INFORMATION

- Biodegradable product (EC 648/2004)
- Packaging 100% recyclable
- CO₂ neutral production and transportation from Belgium to your warehouse
- 100% wastewater treatment
- Production based on 100% renewable energy (solar, thermal or hydroelectric)

SOCIAL RESPONSABILITY

Contributes to a concrete sustainable development project (via CO2Logic).
